

# Daily survey

Day 5 - X23

## Introduction

Filling out this survey should not take longer than *five minutes*. Please take some time to consider the ideas and guidelines.

Your data will be coded thus your *response is anonymous*. Data gathered will be used to generate a *communication heatmap*, visualizing roles and their interaction by color coding their relative intensity of communicating.

The heatmaps will be *hanged out* on whiteboards around *on daily basis*. One heatmap will try to visualize the last days interaction and another one will show aggregated data gathered over time.

## Explanations

This survey tries to investigate *communication and collaboration intensity*, their *initiation* and *nature or reason*.

Intensity: Relate such aspects of communication as duration, information density, significance to your job tasks to their usual levels when in contact with a given role. Communication implies any kind of daily **work related** collaboration or interaction.

Initiated: Whether or not the communication was **mostly initiated** by you.

Nature: The **main reason** or type of communication. If several communications of different nature - **pick the one** with the most influence of your work throughout the day.
