Day 4 - X0

| Introduction |
|--------------|
|--------------|

Filling out this survey should not take longer than *five minutes*. Please take some time to consider the ideas and guidelines.

Your data will be coded thus your *response* is anonymous. Data gathered will be used to generate a *communication heatmap*, visualizing roles and their interaction by color coding their relative intensity of communicating.

The heatmaps will be *hanged out* on whiteboards around *on daily basis*. One heatmap will try to visualize the last days interaction and another one will show aggregated data gathered over time.

Explanations

Jonas Myhrman

This survey tries to investigate communication and collaboration intensity, their initiation and nature or reason.

<u>Intensity:</u> Relate such aspects of communication as duration, information

density, significance to your job tasks to their usual levels when in contact with a given role. Communication implies any kind of daily

work related collaboration or interaction.

<u>Initiated:</u> Whether or not the communication was **mostly initiated** by you.

Nature: The **main reason** or type of communication. If several communications of different nature – **pick the one** with the most influence of your work throughout the day.

Legend

- A scale from low to high please mark only one box.
- A *checkbox* representing a yes-no answer ticked being yes.
- B Backlog work on planned sprint goals
 Regarding daily work on the sprint backlog
 (excludes unplanned interruptions)
- Unexpected change or interruption
 External or internal, technical or social, not intended by planned sprint content
- Decision coordination
 Progress towards sprint goal hindered by uncertainty or
 coordination need caused by unclear responsibilities
 - Exchange of missing knowledge
 About task clarification or to optimize its execution and
- Resolving technical dependencies
 Solely technical and blocking progress
 - Other (please name) Anything particular but unnamed above

A radio group please mark one.

Day 4 - X14

| Introduction | Legend |
|--|--|
| Filling out this survey should not take longer than <i>five minutes</i> . Please take some time to consider the ideas and guidelines. | A scale from low to high - please mark only one box. |
| Your data will be coded thus your response is anonymous. Data gathered will be used to generate a communication heatmap, visualizing roles and their | A <i>checkbox</i> representing a yes-no answer ticked being ye |

The heatmaps will be *hanged out* on whiteboards around *on daily basis*. One heatmap will try to visualize the last days interaction and another one will show aggregated data gathered over time.

interaction by color coding their relative intensity of communicating.

Explanations

This survey tries to investigate communication and collaboration intensity, their initiation and nature or reason.

Intensity: Relate such aspects of communication as duration, information density, significance to your job tasks to their usual levels when in contact with a given role. Communication implies any kind of daily work related collaboration or interaction.

<u>Initiated:</u> Whether or not the communication was **mostly initiated** by you.

Nature: The **main reason** or type of communication. If several communications of different nature – **pick the one** with the most influence of your work throughout the day.

Day 4 - X15

| Introduction | Lege | end |
|--|------|--|
| Filling out this survey should not take longer than <i>five minutes</i> . Please take some time to consider the ideas and guidelines. | | A scale from low to high - please mark only one box. |
| Your data will be coded thus your <i>response is anonymous</i> . Data gathered will be used to generate a <i>communication heatmap</i> , visualizing roles and their | | A <i>checkbox</i> representing a yes-no answer ticked bein |

The heatmaps will be hanged out on whiteboards around on daily basis. One heatmap will try to visualize the last days interaction and another one will show aggregated data gathered over time.

interaction by color coding their relative intensity of communicating.

Explanations

Jonas Myhrman

This survey tries to investigate communication and collaboration intensity, their initiation and nature or reason.

<u>Intensity:</u> Relate such aspects of communication as duration, information density, significance to your job tasks to their usual levels when in contact with a given role. Communication implies any kind of daily work related collaboration or interaction.

Whether or not the communication was **mostly initiated** by you. <u>Initiated:</u>

Nature: The main reason or type of communication. If several communications of different nature - pick the one with the most influence of your work throughout the day.

- ig yes.
- Backlog work on planned sprint goals Regarding daily work on the sprint backlog (excludes unplanned interruptions)
- Unexpected change or interruption External or internal, technical or social, not intended by planned sprint content
- Decision coordination Progress towards sprint goal hindered by uncertainty or coordination need caused by unclear responsibilities
 - Exchange of missing knowledge About task clarification or to optimize its execution and
- Resolving technical dependencies Solely technical and blocking progress
 - Other (please name) Anything particular but unnamed above

A radio group please mark one.

Day 4 - X17

| Introduction | Legen | nd |
|---|-------|--|
| Filling out this survey should not take longer than <i>five minutes</i> . Please take some time to consider the ideas and guidelines. | | A scale from low to high - please mark only one box. |
| Your data will be coded thus your <i>response</i> is anonymous. Data gathered will be used to generate a communication heatmap, visualizing roles and their | | A <i>checkbox</i> representing a yes-no answer ticked being yes. |

The heatmaps will be *hanged out* on whiteboards around *on daily basis*. One heatmap will try to visualize the last days interaction and another one will show aggregated data gathered over time.

interaction by color coding their relative intensity of communicating.

Explanations

This survey tries to investigate communication and collaboration intensity, their initiation and nature or reason.

Intensity: Relate such aspects of communication as duration, information density, significance to your job tasks to their usual levels when in contact with a given role. Communication implies any kind of daily work related collaboration or interaction.

<u>Initiated:</u> Whether or not the communication was **mostly initiated** by you.

Nature: The **main reason** or type of communication. If several communications of different nature – **pick the one** with the most influence of your work throughout the day.

B Backlog work on planned sprint goals
Regarding daily work on the sprint backlog
(excludes unplanned interruptions)

Unexpected change or interruption
External or internal, technical or social, not intended
by planned sprint content

Decision coordination
Progress towards sprint goal hindered by uncertainty or
coordination need caused by unclear responsibilities

Exchange of missing knowledge
About task clarification or to optimize its execution and result
Resolving technical dependencies

Solely technical and blocking progress

Other (please name)

Anything particular but unnamed above

A radio group please mark one.
